The existing unit well for the unit, the General American - SC 2 RB SUA; South Coast No. 13 Well has ceased to produce and the applicant is, therefore, requesting designation of a substitute unit well. The proposed substitute unit well is necessary to drain a portion of the unit which cannot be drained by any existing well in the unit. There is enclosed a plat showing the existing SC 2 RB SUA, the existing unit well for the unit, and the bottomhole location of the proposed substitute unit well, the Samson Resources Company - Valentine Sugars No. 2 Well.

There is attached hereto and made a part hereof a list of the names and addresses of the interested parties to whom this unitization proposal is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, there is enclosed our check in the sum of \$755.00 payable to the Office of Conservation, representing the required hearing application fee.

Yours very truly,

JESSE D. LAMBERT
